Re: V-000283-01-C
Superfund Site

Dear Mr. Littler:

I am pleased to approve, with one exception, two recent requests to amend the Washington multi-site cooperative agreement. The amendments are to increase funding for the Preliminary Assessment/Site Inspection (PA/SI) program and to shift among specific Remedial Investigation/Feasibility Study (RI/FS) projects.

Funding for the PA/SI program is being increased by \$195,000 rather than the \$200,000 you requested. The \$5,000 requested for a showering/washing facility in Olympia is not an allowable cost. A special condition regarding the proposed database management system has also been added.

Your request to shift funds from the Greenacres RI/FS project to the Frontier Hard Chrome and Midway Landfill projects is also approved, as is the time extension for the Greenacres project. A final schedule for the Greenacres project will be determined when funds are restored to this project.

Please review the enclosed amendment. If it is satisfactory, please sign, date, and return an original and two copies by certified mail to Grants Administration Section, M/S 321, within three weeks of receipt.

If you wish to discuss this amendment, please contact Kathryn Davidson, EPA Project Officer, at (206) 442-1088.

Sincerely,

Charles E. Findley
